<p>Action: FBI</p> <p>1. In late December 1966 and early January 1967 QUERP-1 debriefed ANCOIL-1 in detail regarding his medical colleagues still in Cuba. ANCOIL-1 said that most of them would like to leave Cuba. The majority of those described below are psychiatrists who are keenly aware of, and depressed by, the effect of the Castro regime. Almost all of the psychiatrists mentioned herein have friends and patients among Cuban Government officials and, in ANCOIL-1's opinion, those defecting would cooperate in extensive debriefings of their considerable knowledge. Most of them frequently travel abroad. ANCOIL-1 is attempting to maintain correspondence with the most promising. The defection of any of the psychiatrists would be especially harmful to the present Cuban Government, since it is faced with a rapid increase of suicides, mental illnesses, and alcoholism, stemming from a general breakdown of morals and mental health as traditional values are uprooted and replaced by repressive, unfamiliar demands.</p> <p>2. In the descriptions that follow, it should be noted that the Department of Psychiatry of the University of Havana Medical School is composed of professors and instructors from the psychiatric staffs of several hospitals, where the classes actually are given; there is no University Hospital per se.</p> <p>3. Cuban Physicians Considered as Possible Prospects for Defection/Operational Utilization</p> <p><u>ACOSTA Nodal (fnu)</u>. Assistant Director of the Department of Psychiatry of the University of Havana/Calixto Garcia Hospital. Full professor. Acosta, wife, and mother criticize the regime. Has son 13 years of age. Admits correspondence with a brother in the U.S. Takes a courageous stand against the regime but volubly indiscreet. In August 1966 said that he probably was going to be the father of an illegitimate child. Age 40, 5' 5", 140 pounds, almost totally bald. Would defect and cooperate in being debriefed if abroad with family.</p> <p>Distributions 2 - DC/W/C 2 - C/WR 2cc 1 E/IEIS 1 - CCS, DOWNT</p> <p>GROUP 1 Excluded from automatic downgrading and declassification 201-805766</p>

	<p><u>J. C. SUAREZ Ramon, R. Roberto.</u> Assistant Professor of Psychiatry at the University of Havana/Calixto Garcia Hospital. Intelligent and professionally skillful. Admitted he is a candidate for the Cuban Communist Party in order to live more comfortably. Married to a former medical-school student who desires to leave Cuba and who constantly criticizes the political indoctrination in Cuban schools suffered by their four children. Suarez admits corresponding with a brother in Miami. Age 35-40, 5' 7", 170 pounds, black hair. Would probably defect and be debriefed if abroad with family. <i>Possible defector</i></p>	
DoB: c. 1928	<p><u>J. E. YODU Prevez, Rene.</u> Assistant Professor of Psychiatry at the University of Havana/Calixto Garcia Hospital. Follows the dictates of the regime with commentary. Is sole member of Calixto Garcia staff to side with the staff of the Department of Medical Psychology of the University of Havana, headed by Jose Angel Bustamante, which is notoriously servile to the regime. Attended the 1966 international psychiatric congress in Madrid. Married and regularly fights in public with his wife. Mulatto, Age 35-40, 5' 11", 170 pounds, black hair. Vague possibility of defection and subsequent debriefing, if Yodu felt there was absolutely no risk involved. <i>Possible defector</i></p>	
See F DoB: c. 1946	<p><u>J. O. Cunill, Cristina.</u> Specially appointed Professor of Psychology of the University of Havana Medical School/Calixto Garcia Hospital. Only intimate friends know that she is truly anti-regime, as she pretends the opposite, in order to support her widowed mother and younger brother Philip, currently majoring in English literature at the University of Havana and attempting to obtain a scholarship for study abroad (probably England) in order to defect. Cunill may have been born in the U.S., when her father was a Cuban diplomat posted there. She would leave Cuba if it were not for family commitments. She is a courageous, discreet woman, about 25 years old, who might possibly work against the regime while still in Cuba, and most probably would to so if she and her family were outside of Cuba. Would seek a scholarship to study abroad if there were a way to make up for the loss of her monthly income of approximately 500 pesos, which is needed for the support of her family. <i>Possible defector</i></p>	
DoB: c. 1939	<p><u>E. Mora (fnu).</u> Instructor of Psychiatry, University of Havana Medical School/Calixto Garcia Hospital. Admits he desires to leave Cuba but is too gripped by inertia or fear to try. His wife also wishes to leave. They have one or two children. Age 26-27, 5' 6", 130 pounds, blond hair. If abroad with family he would probably defect and consent to debriefing. He is too timid for any other operational utilization. <i>Possible defector</i></p>	
DoB: c. 1928	<p><u>J. C. PEREZ Villar, Jose.</u> Instructor and head of the Department of Child Psychiatry, University of Havana Medical School/Calixto Garcia Hospital. Admitted being so emotionally distressed by his inability to leave Cuba that he requested not to teach university classes. He is attempting to leave through a scholarship, as a delegate to a medical congress, or through the translation/publication of <u>Intelligence and Experience</u>, a medical text by U.S. author James MacV. Hunt, with whom he corresponds. He is married and has a 15-year-old son, whom he is resigned to leave behind to perform obligatory military service, in the event he and his wife can leave. Perez formerly attended a U.S. university. Age 39, 5' 7", 160 pounds, black hair. If outside of Cuba, Perez could be used as an access agent to Cuban officials, as his opposition to the regime is known to only a few friends. <i>Possible defector</i></p>

political comments but does not leave Cuba. In process of divorcing her husband, a physician for the Ministry of the Interior. They have two four- or five-year-old children. Wife is a milagro, age 34, 5' 7", 145 pounds, black hair. She would be of little operational use, for she is too lazy to arrange travel outside of Cuba or to work against it.

DeB: C. 1936

✓ J. Sanchez, Isidoro. Instructor/Intern of Psychiatry, University of Havana Medical School/Castro Garcia Hospital. Has an official post, possibly secretary of the Communist Youth, at the University of Havana, but actually plans to defect through obtaining a scholarship to study abroad, probably in England. The scholarship was authorized by the Cuban Government in September 1966. Sanchez is intelligent, discreet, and a bit Castro. He is a bachelor, 30 years of age, 5' 4", 130 pounds, black hair. It is virtually a certainty that Sanchez will defect while outside of Cuba. There would be an excellent chance of recruitment for use as an access agent.

DOB: C. 1932

✓ J. Acevedo (Jm). Instructor of Psychiatry, University of Havana Medical School/Castro Garcia Hospital. Worked to correct ills of the regime, now disillusioned, depressed, and criticizes the regime in public. Courageous and combative personality. Married, several small children. Brother of Miriam Acevedo, professional singer who represents Cuba International events. Age 34, 5' 7", 150 pounds, brown hair. If asked with family would probably defect and could be used as an access agent.

201-75615

✓ J. AZCO Canasi, Jorge. Head of the Psychiatric Department of the National Hospital, Assistant Professor at the University of Havana Medical School. See paragraph 1 of OSVA-22, 121, dated 30 December 1966.

201-75615

✓ K. Frayde, Marta. Former director of the National Hospital, former delegate to UNESCO, Paris. Frayde told Christina Canali that she is completely anti-regime, that she personally told Fidel Castro that Communism is ... (obscenity) and that Castro just laughed by way of reply. She is rumored to be protected by Castro, who has allowed her to dedicate herself exclusively to private practice. AZCOH-1 has never met Frayde personally but believes that she would probably defect and undergo debriefing.

DOB: C. 1928

Se: F

✓ J. GARCIA Mauri, Clotilde. Assistant Professor of Medical Psychology of the National Hospital and of the University of Havana Medical School. She is single, sexually promiscuous, and has never revealed her political affiliation. Age 30, 5' 6", 125 pounds, brown (but changeable) hair.

DOB: C. 1933

✓ H. Grau, Miguel. Instructor of Psychiatry of the National Hospital/University of Havana Medical School. He is currently attempting to obtain a scholarship to study abroad in order to defect. Married, two children. Wife is sharply critical of the regime and wishes to leave soonest. Grau is the nephew of Pedro GRAU Triana, who reportedly made millions of dollars in construction and real estate before Castro came to power. Pedro Grau now lives abroad. He gave Miguel a European trip upon graduation from medical school. Miguel's wife is also from a wealthy family. Age 33, 5' 6", 140 pounds, brown hair. Once outside Cuba with his family, Grau would defect and possibly could be used as an access agent.

DOB: C. 1933

Psychiatrist of the Civil Hospital of Cienfuegos. Secretly but firm in his allegiance. Married, two or three children. Age 34, 5' 7", 160 pounds, blond hair. AUTOIL-1 has had no contact with him since 1962.</p> <p>DoB: C. 1924 4. Cuban Physicians Whose Defection is Dubious but Not Impossible</p> <p>A. F. Collado (fmr). Official psychiatrist of the Cuban Air Force and formerly of the National Hospital psychiatric staff. He is constantly posing fun at the Cuban Government in a sparring wit at parties that he regularly gives for friends in the Arts, whom he seems to cultivate. He is a close friend of Cristina Guill and Marta Prayle, to whom he has admitted feigning approval of the Cuban Government. He is cultured and loves the good life. He was first married to Eva FREJA Villo, a French national formerly a professor at the Alliance Francaise in Havana, who is now living in France, since their amicable divorce in 1961. He has one child. Collado moves in high government circles. Age 42, 5' 7", 150 pounds, black hair. He might defect, if shown a good offer, in spite of traditionally seeking not to complicate his life. He can be reached through his former wife, with whom he maintains correspondence. AUTOIL-1 is trying to obtain her exact address.</p> <p>DoB: C. 1927 ✓ R. Torroella, Gustavo. Professor of Psychology, University of Havana Medical School, and head of vocational guidance for the University of Havana. His brother-in-law is Paul Esc, Cuban Foreign Minister. Torroella is much connected with the U.S.S.R. with alternating postings in Paris and Havana. In 1960 he told AUTOIL-1 that he intended to publish books outside of Cuba in order to have income and pretexts to justify travel and residence abroad. In AUTOIL-1's opinion, Torroella studied and failed to justify Marxism, and obtained his current UNESCO posting so as to be out of Cuba. His wife Marta Kouri de Torroella and two daughters are presently in Havana. Age 39, 5' 8", 170 pounds, light brown hair. It is very doubtful that Torroella will openly break with the regime, even though he establishes a semi- or permanent residence abroad, but it might be worth approaching him when he has his family abroad because of his knowledge of, and access to, key Cuban Government officials.</p> <p>DoB: C. 1929 ✓ C. Palacios, Claudio. National Coordinator of Psychiatric Care, Ministry of Public Health, and full Professor of Psychiatry at the University of Havana Medical School/Historia Hospital. He is extremely clever, intelligent, materialistic, and ambitious. He maneuvered himself into an important post and a wealthy private practice. He is a candidate for the Cuban Communist Party, which probably will be denied him because of a previous internship in a New York hospital, according to the opinion of Jorge Abdo Canasi, a former partner in medical practice. Palacios was a delegate to an international congress of psychiatry in Madrid in 1966. He has two daughters by a first marriage; no children by the second. Age 35-40, 5' 5", 170 pounds, brown hair. Defection is doubtful, but it is felt that Palacios would give serious consideration to the offer of any post that would enhance his professional career.</p> <p>DoB: C. 1902 ✓ D. Cordoba, Armando de. National Coordinator of Psychiatric Teaching, Ministry of Public Health, full professor, head of the Psychiatric Department of the University of Havana Medical School/Palacio Hospital. CURRENT DEVELOPMENT IN MEDICINE

129

SOCIAL PSYCHOLOGY: A STUDY ON ITS LIMITS
AND BASIC CONCEPTS(*)

By Dr. Leopoldo E. Araujo Bernal(*)

(*) Professor of Medical Psychology, School of Medical Sciences of the University of Havana. Director of the Department of Social Psychology of the Institute of Advanced Nervous Activity.

137

ELECTROCARDIOGRAPHICAL ALTERATIONS IN THE
TRANSVENTRICULAR MITRAL COMMISSURECTOMY

By Dr. A. Hernandez Canero(*), Dr. M. Rueda Mon(**)
and Dr. J. Castillo Navarro(**)

(*) Professor of Internal Medicine, Head of the Cardiology Department of the Comandante Manuel Fajardo Training Hospital.

(**) Assistant Specialists, Department of Cardiology of the Comandante Manuel Fajardo Training Hospital.

142

CONCLUSIONS

1. The electrocardiograms corresponding to 33 cases of mitral stenosis operated transventricularly were studied.

2. The rhythm variations, as well as the favorable changes in the auricular and ventricular complex are those which, according to other authors, are present in patients operated transauricularly.

JPRS Doc No. 33413 : Date 20 Dec 65
Trans. on Card No. 341 : UNCL

3. Many instances of pericardial injury were observed immediately after the operation. This injury is similar to that observed in patients who die through the atricle.

4. We were able to observe a fast deviation of the QRS axis towards the left, accompanied by signs of left ventricular hypertrophy, which shows severe mitral insufficiency.

5. The possibility of myocardial infarction following the trans-ventricular mitral dilatation is mentioned.

CHRONIC OBSTRUCTIVE EMPHYSEMA(*)
PSYCHOPATHOLOGY

By Dr. Alberto Orlandini N.(**)

(*) Presented before the First Regional Congress on Stomatology of Southern Oriente, on 29 October 1964.

(**) Resident of the Psychiatric Service, Provincial Training Hospital of Santiago de Cuba.

157

SUMMARY

The chronic obstructive emphysema with breathing insufficiency of the fourth degree originates first delirium, and then catatonic stupor. The psychic disturbances following the changes of consciousness are described.

168

CARDIOVASCULAR ASPECTS OF SICKLE-CELL ANEMIA(*)

By Dr. Jose Cabrera Flores(**) and
Dr. Hugo Camargo Gallegos(**)

(*) Presented before the First Regional Congress on Stomatology of Southern Oriente. Santiago de Cuba, October 1964.

(**) Dr. Enrique Cabrera Cosio Cardiovascular Department. Provincial Hospital of Santiago de Cuba.

190

CONCLUSIONS

After studying eight patients with Sickle-cell anemia, the most important observation has been the enlargement of the electric systole shown by the electrocardiograms. This is to be confirmed in subsequent studies. Other observations are the presence of the Hegglin syndrome in the two cases presenting the lowest hemoglobin level, the evolution with normal cardiac rhythm in most cases. This phenomenon is present in the evolution of chronic anemic syndromes and has not been fully explained yet.
